Skills

- PYTHON
- CPP
- SQL
- NUMPY
- PANDAS
- MATPLOTLIB
- SEABORN
- SCIKIT-LEARN
- AWS (S3, EC2 Basics)

Language

- English
- Hindi

About Me

BTech CSE student passionate about Data Science and Machine Learning. I enjoy working with data, learning new technologies, and strengthening my analytical and programming skills to solve real-world problems.

Education

- **St joseph's senior sec school**
CBSE board
10th 2020-2021
12th 2022-2023
- **Vellore Institute of Technology**
Btech CSE 2023-2027
CSE Specialization in Health Informatics focuses on applying computer science principles to healthcare data and systems. It involves working with electronic health records, medical data analytics, and healthcare information technologies.

Experience

- **Artificial Intelligence**
Techkriti'24, IIT Kanpur 2024
Completed an Artificial Intelligence project focused on understanding core AI concepts and practical applications, demonstrating problem-solving and analytical skills through hands-on learning.
- **Applied Machine Learning in Python**
University of Michigan (via Coursera) 2026
Completed an online course focused on machine learning techniques using Python, covering model building, evaluation, and practical implementation of ML algorithms.
- **Generative AI Using IBM Watsonx**
IBM Career Education Program (IBM Developer Skills Network) 2025
IBM Career Education Program (IBM Developer Skills Network)
Description: Gained hands-on exposure to Generative AI concepts using IBM Watsonx, including foundational AI models, prompt-based interactions, and real-world AI applications.
